AMENDMENT UNDER 37 C.F.R. § 1.114(c) Attorney Docket No.: Q78876

Application No.: 10/781,907

**AMENDMENTS TO THE CLAIMS** 

This listing of claims will replace all prior versions and listings of claims in the

application:

LISTING OF CLAIMS:

1. (Previously Presented): A card type USB connector, comprising:

a card type plug having a plug body and a plurality of pins on a top of the plug body;

a card type receptacle having a receptacle body receiving the card type plug therein, and a

plurality of pins inside the receptacle body, the plurality of receptacle pins being disposed in

correspondence to the plurality of pins of the card type plug so as to be electrically connected,

wherein the plurality of pins of the card type plug and the plurality of pins of the card

type receptacle are electrically turned on according to contact of the plug body to the receptacle

body and are electrically turned off according to detachment of the plug body from the receptacle

body.

2. (Original): The card type USB connector as claimed in claim 1, wherein the card type

plug and the card type receptacle are polygonal in shape.

3. (Original): The card type USB connector as claimed in claim 1, wherein the card type

plug has guide projections on sides of the plug body to block a reverse insertion of the card type

plug into the receptacle, and the card type receptacle body has holes inside thereof,

corresponding to the guide projections.

2

AMENDMENT UNDER 37 C.F.R. § 1.114(c) Attorney Docket No.: Q78876

Application No.: 10/781,907

4. (Currently Amended): A card type USB gender changer card-type USB connector,

comprising:

a card type USB receptacle including a receptacle body receiving therein on one side a

card type plug having a plug body and a plurality of pins on a top of the plug body, wherein the

receptacle body includes a plurality of pins inside the receptacle body, a first portion of those

pins disposed in correspondence to the plurality of pins of the card type plug so as to allow the

card type USB receptacle and the card type plug to be electrically connected; and

a USB plug connected to the receptacle body, having a plurality of pins electrically

connected to a second portion of the plurality of pins of the card type USB receptacle.

5. (Currently Amended): The USB gender changer card-type USB connector as claimed

in claim 4, wherein the USB plug is series "A" or "B."

6. (Currently Amended): The USB gender changercard-type USB connector as claimed

in claim 4, wherein the card type plug has guide projections on sides of the plug body to block a

reverse insertion of the plug, and holes corresponding to the guide projections are positioned

inside the card type receptacle body.

7. (Currently Amended): A USB gender changer card-type USB connector, comprising:

a card type USB plug having a plug body and a plurality of pins on a top of the plug

body; and

a USB receptacle connected to the plug body, having a plurality of pins electrically

connected to the plurality of pins of the card type USB plug.

3

AMENDMENT UNDER 37 C.F.R. § 1.114(c)

Application No.: 10/781,907

Attorney Docket No.: Q78876

8. (Currently Amended): The USB gender changer card-type USB connector as claimed

in claim 7, wherein the USB receptacle is series "A" or "B."

9. (Currently Amended): The USB gender changer card-type USB connector as claimed

in claim 7, wherein the card type USB plug has guide projections on sides of the plug body to

block a reverse insertion of the plug.

10. (Withdrawn): A USB memory card, comprising:

a memory storing data therein;

a memory controller electrically connected to the memory, controlling storage of data in

the memory or reading out the data stored in the memory;

a USB interface controller electrically connected to the memory controller, for converting

data from the memory controller into data adaptive to a USB interface specification for output,

and for converting data received from a device adapted to the USB interface specification into

data adaptive to the memory controller specification; and

a plug body receiving therein the memory, the memory controller and the USB interface

controller,

wherein a plurality of pins are formed on the top of the plug body for electrically

connecting the USB memory card.

11. (Withdrawn): The USB memory card as claimed in claim 10, wherein the plug body

is polygonal in shape.

4

AMENDMENT UNDER 37 C.F.R. § 1.114(c) Attorney Docket No.: Q78876

Application No.: 10/781,907

12. (Withdrawn): The USB memory card as claimed in claim 10, wherein the plug body has guide projections to block a reverse insertion of the plug, on sides thereof.

13. (Withdrawn): The USB memory card as claimed in claim 10, further comprising a NO WRITE switch to block writing of information in the memory or deletion of information stored in the memory.

14. (Withdrawn): The USB memory card as claimed in claim 10, wherein the memory comprises a NAND flash memory.
